RACE REPORT

RD 4 STATE CHAMPIONSHIPS

Sponsored by DICANDILO STEEL CITY

In what should have been a day for consolidation for many riders in the DiCandilo Steel City State Road Racing Championships, in reality it turned into a day of destruction for many riders.

The weather was good, the track conditions fine but the day went horribly wrong for a number of competitors.

Unfortunately three were transported to hospital - #10 Tony Milner with a fractured leg, now in plaster and discharged from hospital on Wednesday. #88 Chris Galbraith has a complicated wrist injury and underwent his 2nd operation on Thursday. Best wishes to these two for a full recovery. The third transport was Ben Henry who suffered concussion and was released Sunday night. #89 Josh Trigwell suffered a # wrist and is now in plaster and at home in Bunbury. #77 Adam Senior and #48 Adrian Mettam are also on the injured list both suffering a crack in the humerus near the shoulder and confined to an arm sling for a time. #69 Malcolm Brown is sore but okay, as is #120 Jack Tabain and all others who crashed but returned to the pits under their own steam.

A total of 18 riders fell during the day—lets hope that number is not repeated again. We wish you all a quick recovery and hope that the repair bills are not too expensive.

Special mention must go to our flag and track marshals, recovery crew officials and Race Control personnel— a great job done in extreme conditions. One race day I think the majority of us wish to put behind us!

First race of the day— 'The Causeway Challenge Cup B Grade Series' had barely started and was red flagged with Ben Henry (Ducati 749) crashing heavily just past the start line and knocking himself out. A full restart was called and from the start Matt Battista (BHS Yamaha R1) made short work of the six lap journey taking the 25 points for the win. Chris Galbraith (Weld West Suzuki) came in 2nd from Mark Schnierer (Trakdayz Kawasaki) third with Jamie Boland 4th. First C grader home was #19 Jeremy Outschoorn (Honda 1000) followed by William Hough (Kawasaki 600).

Fastest Lap: M Battista (BHS Yamaha) 0:58.5650 closely followed by Galbraith 0:58.6670 and Schnierer 0:58.9860

Battista now has 91 points and leads overall from Schnierer on 83 with Jamie Boland third on 69.

The Formula Two was won by Tom Hatton who took advantage of the day to prep his 125GP bike for the up coming National round in Tasmania. He convincingly won the second and third races after finishing second in the first race which was won by Bob Humphreys both riding Honda RS 125's whilst series leader Malcolm Brown was one of the many riders who crashed and he has dropped to sixth place with 164 points. Anthony Robson (Honda RS 125) has taken over at the top with 202 points and Colin Rose (Suzuki SV 650S) is second on 197 with Humphreys third on 189 points. ...2/

The Two Wheel Wreckers Clubman Class for the round was won outright by #90 Greg Tresidder (Yamaha R1) who will now run in the B grade and Superbikes at the final round. Jeremy Outschoorn took both wins in the two x 4 lap races both from William Hough, Matt Fathers and Thomas Rogan. Race 2 saw Trevor Arthur the winner followed by Tresidder and Rogan and in the final it was Tresidder from Trevor Arthur and William Hough. #19 Jeremy Outschoorn was a casualty of race 2 with his ride finishing in the Basin.

The “Ultra Fast Karts” Sidecar Championship saw Lindsay Fagan/Bruce Rodgers continue where they left off at the end of round three and they scored another perfect three from three. Rob Taylor/Dean Napier took two second places. Brothers Darryn and Neal Walker returned from the disaster of round three when their gearbox blew up in a long outfit owned by renowned sidecar builder Rick Hanger and they showed that they will very soon be challenging for the top spot. Whilst they have dropped form from their early season third to fifth, they are only nine points behind third place Ollie Onesti/Peter Ashman. Onesti/Ashman hold third overall with 163 points. Darryn and Neal’s dad, Rod Walker/Chris Hardy hold fourth spot a mere four points ahead of the boys.

Fastest lap: L Fagan/B Rodgers 1:01.8750

It’s rumoured also that we will see another member of the Walker family shortly—daughter Alix could be passengering for dad.

Fagan/Rodgers retain top spot with 255 points, Taylor/Napier are second with 211 points. Good to see Mick Robbins back at the track. Also good to see retired rider Clive Watson returning to the track as a machine examiner—well done Clive. Brother Garry (who also used to race sidecars) now assists with Commentary—again greatly appreciated.

The BHS Supersport Championship was a mixed bag with championship leader Cameron Stronach (Yamaha R6) having his lead slashed to only 20 points from the 60 he had at the start of the day. Two of the three races had re-starts after red flagging—Race 1 was only 4 laps in when Jack Tabain and Adam Senior went down in the Basin and Race 3 saw a red flag also on lap 2 after Josh Trigwell went down heading up to Skyline.

Mick Kelly (Yamaha R6) returned to action after sitting out the third round and won the first two races in convincing fashion and looked set to do the treble, until Russell Nash (Yamaha R6) stepped in and snatched away that possibility with a gutsy win in the third race. Stronach’s woes were further compounded by a DNF in the second race after the bike mysteriously stopped without apparent reason. Brad Fletcher (Yamaha R6) is now in a very strong position to challenge for the top spot. The title will go to any of three riders, Stronach, Fletcher, or defending champion Ralph Mammoliti (Kawasaki 600) who has made steady progress in the past couple of rounds. Kelly will not contest the final round as his bike will remain in the East after the Tassie national for the final at Eastern Creek (Nov 17-19)

Fastest Lap: M Kelly 0:58.7150

In the North City Yamaha Superstock #111 Levi Dicandilo (Honda CBR600) continued on his winning way with two from three to take his series tally to 285 points, 54 points clear of second placed Josh Trigwell (Kawasaki 600) who took the race 2 class win from Dicandilo, but unfortunately came to grief in the third race. Luke Adams rode a good round to take two 2nds and a third with Jason Walker coming in third overall on the day from Calvin Ridley, Scott Houston and Geoff Allan.

Fastest Superstocker : L Dicandilo 0:01.1440

In the **Steel Blue Superbike Championship** the first race was declared after the second red flag with only two laps completed. First to go down was Chris Galbraith (Weld West Chapman's Suzuki) at the left hander then from the restart Matt Battista (BHS Five Star Yamaha) high sided also at the left hander and in the wash up Ben Stronach (SMB Suzuki GSXR 1000) was awarded the win and all finishers were given half points as less than 75% of the race had been completed (and also after 2 red flags a race cannot be restarted). Steelblue Team riders Russell Nash (Yamaha R1) was hot on his heels with Tom Hatton (Yamaha R1) third. Hatton unfortunately DNF'd on lap 1 in the final race with Alderson crashing out heading out of the Basin on the last lap of Race 3.

In the final two races Stronach and Nash put on some spectacular racing with the lead swapping many times before Nash won the second race by .8sec and then the third by .51sec. Whilst Nash might have won the day, Stronach is still in a commanding position for his first State Championship with a 60 point advantage over second placed Alan Watts (Yamaha R1) who in turn has a 7.5 point lead over third place Wayne Smith (Honda CBR 1000). Mark Schnierer was the highest placed B grader on the day with Joel Reynolds the highest placed C grader.

Fastest lap : Ben Stronach 0:58.0200

Welcome to another 4 new competitors : #20 Cameron Keevers (Superstock), #50 Tony Brewster (TZ250), #87 David Callaghan (Superstock) and #112 Graham Craig (Superstock)

Tanks to those extra volunteers that helped out last race day— Tracey Mineham who marshaled, Office helpers—Gail Craig (who's son was having his first ride), Bev Petrie (wife of racer John), Nicole Harwood in Timing and Tanja Neuffer who helped on the Grid.

In closing we ask that all members give some thought to the role of marshals and how important they are to making the events actually happen on the day. Our marshals are currently low in numbers and this in turn makes the job extra hard on the day for those volunteers that do turn up to stand on a corner from 9am in the morning to end of racing (4.30—5pm). We urge all members, especially those that are not competing to volunteer for at least one meeting a year and share the load. Without marshals the racing will not happen.

If you think that you or your mate could give us a day—maybe the final State round and or the Kings of Wanneroo—please give the office a call on 9409 1002 or our new Acting Chief Marshal Troy Honey 0429685701. SEE FLAG MARSHALS REPORT Page

Flag Marshal's Race Report Round 4

G'Day Guys and Girls,

Wow, what a day.

It's Troy Honey here—your current Acting Chief Flag Marshal. My first attempt at the Chiefs position certainly did put me to the test. But due to your support—we held it together. You Guys were great, top team effort by all.

We had it all thrown at us at Round 4. Sand all over the track from all the rain prior to the event, new flag positions and numbers, no track marshals in the sand and lets just say—quite a few incidents to deal with on top of it all.

I thought it was great how you all accepted the changes so well and for turning up despite not knowing how the weather would turn out. But that's what marshalling is all about—giving your time under any circumstances and conditions...the most precious thing a person can give.

Thank you to all the racers for your patience throughout the day and I hope everyone returns to race at Round 5, fit, healthy and ready to race.

We cannot go on without a special mention here to 2 people who give so much to the club and help us Marshal's out at every round, and that is, Frank and Anita. Frank keeps a close eye on what goes on up the hill and in the basin and gives his view to race control to help us deal with incidents promptly. Anita (helped by Barb and Hilary) prepares all our lunches and beverages throughout the day and I know all marshals are really appreciative of this.

To all marshals—Let's keep getting the team working closely together and give everyone the best finish to the season ever.

Troy Honey
