Issue No.11 Dec 2009

ANNUAL GENERAL MEETING REPORT 2009

The Club's AGM was held last Wednesday night with approx. 55 members attending.

Nice to see a number of our Life Members were in attendance:

Ken Duperouzel,
John Van Bockxmeer,
Peter Senior
Denise Stronach
Phil Morrison
Trevor Adams
Peter Smith
Anita Fellowes
Louise Hayden
Karen Dore
Peter Girling

And a special welcome & congratulations was given to Bryan Staring (back in Perth for the Christmas break) who is the 2009 Australian Supersport Champion. Club Membership for 2009 was 282, 83 down on last year.

The President Stuart Campbell gave a financial report on the Kings International and Club accounts.

Whilst the Kings weekend was a huge success on track the spectator break even point of 5,000 was not achieved. This has left the Club with a loss which will have to be paid off over the next year. In saying that the event has a long list of positives for the Club and the motorcycling community in WA. A date has been set aside for a 2010 event and it is hoped that we can secure individual "guest rider" sponsors and government funding for the ongoing future of this major international event.

All members and supporters of the Club can now assist by purchasing discounted stock ie Kings merchandise, new and used Pirelli tyres, and stock of Bridgestone wets PLUS THE KINGS DVD—great last minute Xmas gifts, all purchased by the one phone

call or email to the Club.

This year's Social Account produced a good profit with proceeds from the Club Bar run by Peter Girling. Account Balance for end of season is \$5,287.66. Well done Pete.

Congratulations to our new 2010 Committee members and Office Bearers and to our outgoing volunteers thank you for your contributions.

Special thanks goes to Steve Hardacre, a behind the scene person who has made a huge contribution to the club and the Kings event producing all the graphics.

And last but not least a big thank you must go to Stuart Campbell for nominating for a second term as Club President.

SEASON'S GREETINGS TO ALL

COMPETITIONS COMMITTEE AGM REPORT:

The Committee Chairman presented a few changes that are being considered for the 2010 season. They are

- ◆ The biggest change would be the ineligibility of the N tec tyres for all classes of racing. This decision was based on the cost and availability and also trying to keep a level playing field for all competitors. Following discussions from the floor at the AGM the decision to not allow N tec tyres at both the Club race days and the state championships would be rediscussed at a Combined committee meeting to be held on 16th December and members will be notified of the final decision via the Club website and email.
- ◆ Rd 3 two Superbike races with increased number of laps.
- ◆ Rd 1 to remain as a two day event with practice and qualifying on the Saturday and racing on the Sunday.

RACING INFO continued

With a late start to the State Championship rounds (May), due to working around the Aust. Championship rounds, and available dates the Club has tentatively scheduled two Club race days, one March and the other April. The Committee is to consider a suggestion that we run a two meeting Club Championship, a good chance for newcomers and regulars to get up to speed before the first Championship round.

The Committee will be looking at stand alone Tuning Days and or tuning days combined with some Racecraft coaching days.

A reminder to trophy winners to please arrange pick up or these trophies could be recycled early February.

The 2010 Club Calendar is now available (Copy enclosed). This is the final draft with only a couple of dates to be confirmed (they are waitlisted) barring a Car Club track hire change.
